

Homelessness In Maryland

Statewide Homeless Data Collected in 2016

365 Annualized Data
 Accumulative data by providers serving the homeless. Totals represent those served through outreach, in shelters, and transitional housing or placed in permanent housing between July 1, 2015 and June 30, 2016.

Point-in-Time (PIT) Data
 A "snapshot" count of those experiencing homelessness on one night during the last two weeks of January. HUD requires a shelter and unsheltered count on odd years only. Only those in shelters were counted in January 2016. Therefore, 2015 data is used where noted.

Deaths of the Homeless

Over the last decade approximately 1,029 people experiencing homelessness have died statewide.

54% ↑ Deaths of those experiencing homelessness have increased by 54% since 2007.

January 26% ↑ Deaths of the homeless increased by 26% during the month of January.

Proposed Solutions

- Increased access to affordable housing.
- More low-barrier shelter options.
- Housing First.
- Increased funding for supportive services.
